## Short Bio

I'm a self-taught **Web Developer** with hands-on experience gained through building real-world projects. I upskilled myself by working on projects utilizing JavaScript, React.js, Tailwind CSS, Next.js Node.js, Solidity, Web3.js, PostgreSQL, and more. I'm passionate about continuous learning and excited to contribute to innovative and challenging projects in the web and blockchain space.

## Education

### TKM College of Engineering

*Bachelor of Technology in Electrical and Electronics (CGPA of 6.8)*

**August 2018 - June 2022**

*Kollam, India*

### Silver Hills Public School (CBSE)

*Class XII -PCM with Computer Science (89%)*

**June 2016 - March 2018**

*Calicut, India*

*School Topper in Computer Science (2018)*

## Projects

**Ads Analytics Dashboard** | [Project Link](#) | *TypeScript, NextJS, Python, FastAPI, TailwindCSS, PostgreSQL* | [Github link](#)

- A fullstack web application for tracking and managing analytics across platforms. Built using Next.js, FastAPI, PostgreSQL, and JWT authentication with support for Google login.

**Lifeline by BMH** | [Project Link](#) | *TypeScript, NextJS, TailwindCSS* | [Github link](#)

- Built a responsive, multi-section healthcare landing page using Next.js, TypeScript, and TailwindCSS for Baby Memorial Hospital's emergency initiative.

**Decentralized Exchange** | [Project Link](#) | *JavaScript, Solidity, ReactJS, NodeJS, wagmi, Moralis API, 1Inch* | [Github link](#)

- A Decentralized crypto Exchange built on Ethereum Mainnet.

## Experience

### Megara Robotics

*Machine Learning Engineer Intern*

*August 2020*

### Nine, Degen Pirates

*Collab Manager/Alpha Hunter*

*July 2023 - June 2024*

### Flip Guard

*Community Guard/Affiliate*

*June 2023 - January 2025*

### Freelance

*Blockchain Frontend Developer*

*March 2024 - March 2025*

### DotHeal

*Frontend Developer*

*May 2025 - Present*

## Technical Skills

**Languages:** Solidity, TypeScript, JavaScript, C++ , Python, C, HTML, CSS, MySQL

**Tools and Frameworks:** NextJS, NodeJS, ReactJS, TailwindCSS, EtherJS, ExpressJS, Web3JS, Hardhat, PostgreSQL, Git
